

Project Purpose

The 95th Street trail is in terrible shape and needs replaced. The asphalt trail will be replaced with concrete and the drainage crossings will be replaced. The two wood staircases are in poor condition and don't meet Code, which creates safety concerns for users. The stairs at 87th would be replaced with concrete and include some landings. The staircase at 77th and Constance will be torn out and abandoned due to site constraints. There is another trail access point less than 1/4 mile to the south.

Project Description

Tear out and replace 95th Street trail and replace Little Mill Creek Trail staircase trail connection at 87th Street and 77th & Constance.
